

RUBBER MAT

COMFORT AND DURABILITY, TIED TOGETHER

ILEX Inc.

Pioneering Your Success

About Us

Ilex Inc is a leading manufacturer and exporter of high-quality rubber mats that was founded five years ago by three engineers. With a passion for innovation and a commitment to excellence, they set out to create a company that would provide the best possible products to customers around the world. Today, our company is a leading firm in the rubber mat manufacturing and exporting industry, with a reputation for quality, reliability, and customer service.

From the beginning, our founders understood the importance of using the latest technology and manufacturing processes to create products that would meet the needs of customers in a variety of industries. We are committed to providing excellent customer service, and our team is always available to answer questions, provide advice, and help customers find the right products for their needs.

We are proud to be a company that was started by three engineers with a vision for excellence, and we look forward to continuing to provide the best possible products to customers around the world.

Our Vision

To be globally recognized turnkey projects and supply company that leads to a harmonious and motivating workplace that will attract, develop and make its clients procurement easy and flawless

Our Mission

Delight our consumers worldwide of products with top niche quality supported by on time delivery at a reasonable cost leading to continually improvement of our business processes.

PRODUCT DESCRIPTION

Introducing the versatile and durable Rubber Mats – the perfect solution for a range of sectors.

Ilex Rubber Mats are designed to withstand heavy use and provide a comfortable and safe surface for a variety of animals and people.

Ilex Rubber Mats are made from premium-grade rubber, these mats are resistant to tears, punctures, and other types of damage, making them ideal for high-traffic agricultural environments. They are also easy to clean and maintain, so you can keep your animals' living spaces hygienic and comfortable.

By providing a comfortable and supportive surface for the cows to lie on, rubber mats can help to reduce stress and promote overall well-being, which will have a positive impact on milk production.

Ilex rubber mats provide a number of benefits for horses, including improved comfort and well-being, reduced stress, reduced risk of injury, improved hygiene, and reduced lameness. The soft and supportive surface of rubber mats helps to reduce pressure on joints and muscles, preventing soreness and injury, and promoting circulation and overall comfort.

In industrial sector, our rubber mats provide a slip-resistant surface that is ideal for heavy machinery and equipment. They also offer excellent shock absorption, reducing fatigue and discomfort for workers who are on their feet for extended periods of time.

In gym and fitness settings, our rubber mats offer excellent shock absorption and provide a comfortable surface for a variety of exercises. They also have a non-slip surface, ensuring safety for users even during high-intensity workouts. For restaurants and commercial kitchens, our rubber mats provide a non-slip surface that is perfect for wet and greasy environments. They are also easy to clean and maintain, making them ideal for these high-traffic areas where food safety is a top priority.

Overall, our Rubber Mats are a durable and versatile solution for a wide range of settings. Whether you're looking for a comfortable surface for your animals or a safe and slip-resistant surface for your workers, these mats are a reliable choice that will deliver lasting performance.

BENEFITS & FEATURES

Comfort

Rubber mats offer cushioning, making them comfortable to stand on for extended periods of time.

Durability

Rubber mats are highly durable and can withstand heavy foot traffic and heavy loads.

Slip resistance

Rubber has a high level of traction, making it slip-resistant and safe for use in areas with potential slips and falls, such as in kitchens, bathrooms, and entrance ways

Anti-Fatigue

The cushioned surface of rubber mats helps reduce fatigue for cows and horses, making them a great choice for areas where animals are required to stand for long periods of time.

Thermal Insulation

Rubber mats provide insulation, helping to regulate temperature in stables and barns, making them more comfortable for animals.

Easy to clean

Rubber mats are easy to clean and maintain, and they resist the build-up of dirt and bacteria.

Environmentally friendly

Rubber mats are often made from recycled materials, making them an environmentally friendly flooring option.

Non-Absorbent

Rubber Mats do not absorb liquids, thus are easy to wash or clean and helps in keeping cattle hygiene.

Improved animal health

Rubber mats can improve animal health, as they reduce the risk of injuries and improve overall comfort for animals.

Cost-effective

Rubber mats are cost-effective, as they are durable and long-lasting, reducing the need for frequent replacement.
